MEMORANDUM FOR MR. KISSINGER

FROM: Helmut Sonnenfeldt

SUBJECT: Italian Labor

One of the proposals approved early last month by the 40 Committee for Italy related to support for the moderate administration of the Christian Democratic Labor Conference (CISL) under Bruno Storti. A strong minority in the CISL is attempting to unseat Storti and move the CISL toward unity with the PCI dominated labor confederation.

As the 40 Committee proposals begin to be implemented, Ambassador Martin will probably be sending in additional reports of this nature.

Concur: Mr. Chapin
